

# Human Rights Policy

”

As a member of the UN Global Compact and consistent with our Code of Conduct, Sonepar is committed to respecting human rights and protecting the environment. We believe that everyone has the right to be treated with dignity and respect. It is everyone's responsibility everywhere, every day, in everything we do.

As a world leader in the B-to-B distribution of electrical products, solutions and services, Sonepar is an influential player throughout its value chain. The Group embraces its responsibility to respect human rights and address the impacts its activities may have. It has made human rights an integral part of its Corporate Social Responsibility (CSR) roadmap.

In addition to upholding and promoting human rights across our operations, we favor business partners who share our commitment to respect internationally recognized standards.

We aim to implement processes to identify, prevent, mitigate and account for how we address adverse human rights impacts that may occur in our activities and as a result of our business relationships. Upon identification of adverse human rights impacts, we commit to put in place mitigating processes.

As we map our risks and evaluate the effectiveness of our actions, our policies and processes will be periodically reviewed to integrate lessons learned.

We are Sonepar, Powered by Difference!"
